Consolidated technicians work to restore telephone service
Some services affected by power outage in Consolidated's west region

MATTOON – Consolidated Communications technicians continue to work at this hour to restore telephone and data services to customers in the west region of its service area. Technicians are also using generators to keep service operational in areas without commercial power.

Customers who have immediate service issues can contact the Residential Customer Call Center at 1-800-553-9981 or the Business Customer Call Center at 1-800-500-9000.
